Date

Dy.No D1/2020/1002251  
Date: 16.07.2020

Subject: Information sought under Right to Information Act, 2005

Sir,

This is in reference to your RTI application dated 23rd of June 2020 made u/s 6(3) of the RTI Act, 2005.

With respect to the information sought at point no 1, The Hon'ble Supreme Court of India vide its order/verdict dated 30.01.2018 has quashed Clause 4(3) of the Screening Test Regulations, 2002 of the Medical Council of India (MCI) thereby providing relaxation to the Indian medical students studying abroad to take transfer/migration to other universities/academies/institutions and still become eligible to write the Screening Test conducted.

Hence after the aforesaid Hon'ble Supreme Court's verdict of 30.01.2018, migration of students from one medical universities/academies/institutions to another located in the same country or distinct is Permissible.

With respect to information sought at point no 2, conferring to Section 13(4A) Medical Council Act. Necessarily, for examining the validity of the medical qualification granted by a medical institution in any country outside India, it is fundamental that the program of Undergraduate Medical Course (Equivalent MBBS) of the medical universities/academies/institutions are analogous. If the program/course/duration of the Undergraduate Medical Course (Equivalent MBBS) varies, in case of migration, candidate will not be eligible to sit for Screening Test as per the provisions of the Indian Medical Council Act, 1956 (as amended) and the Screening Test Regulations, Act 2002.

Hence Migration from universities/academies/institutions with 6 years course/duration program to 5 years course/duration program is Not Permissible.
